Panasonic

Intel Core™ i5 Tablet
+ Dedicated Panasonic Scanners

UNSTOPPABLE
NETWORK SCANNING
NOW FASTER THAN EVER

These network scanning solutions bring true production-class scanning and document automation by bundling a dedicated Panasonic scanner with an Intel Core™ i5 tablet. You can select from a variety of high-speed scanning models ranging from 65 ppm / 130 ipm up to the world's first and only 140 ppm / 280 ipm solution. Best of all, the powerful Intel® Core i5 processor ensures maximum productivity while eliminating any slowdowns when performing intensive image processing tasks.

TOUGHPAD®

MAKE SCANNING
PRODUCTIVITY SOAR

The Intel Core™ i5 tablet powers document imaging and management automation for every user on your network. You can scan and digitize massive jobs just as quickly as you would if the scanner were installed at your desk. Because the tablet has all the power of a dedicated PC, it provides high-speed character recognition and powerful document management you can customize for your exact needs.

Bring high-speed network scanning online with the new Network Scanner Solution

DEDICATED SCANNING POWERHOUSE

- Intel® Core™ i5-4302Y vPro™ Processor
- 8 GB RAM
